Situation

Rosiana rural house has kept its traditional architecture, revealing inside the stone that is characteristic of the area of Santa Lucia. Its location provides clients with a glance at what once was one of the main sources of income for this municipality - agriculture - particularly olive trees and orange trees as well as many other types. During your stay and depending on the time of year of your visit you can sample some of these fruits.

It is situated in a very quiet area, next to a purpose-built footpath ideal for ramblers, or just those wanting to have a stroll or do a spot of mountain biking. At the same time it is very near the historic centre of Santa Lucia where there are various restaurants, a chemist, a petrol station, municipal swimming baths, supermarket and other services.
