Situation

It is situated in the rural park of the "Nublo", among picturesque mountains, in the center of the island of Gran Canaria. Roque Nublo, a spike of basalt rock held sacred by the once indigenous Guanches and considered to be the true symbol of Gran Canaria. It was from Nublo that the island chief Bentejuí threw himself to his death rather than surrender to the conquest . Sometimes in the evening there is a remarkable daily phenomenon, when a sea of clouds comes billowing and eddying through the mountains like an ocean in slow motion.
