# Casa Rural MANUELA

## Datos Generales

**description:** Casa Manuela was built in the XIX century and repaired in the late XX. It contains a sitting-room, kitchen-dining room, bathroom and 2 double rooms (one with double bed and one with twin beds). There are two solar panels on top of the house. The wooden ceilings, forged lamps, hand-made embroideries and rustic furniture make Casa Manuela a house with the style and tradition of our ancestors.

From the patio, provided with a large porch with deckchairs and terrace furniture and gardens, you can enjoy lovely sunsets and admire the smaller islands of El Hierro and La Gomera on the horizon normally clear of the southwest coast of La Palma.

The quietness of the place, the right equipment and surroundings of Casa Manuela make a pleasant stay for the visitors.
