

Casa Rural DON PEDRO II

Datos Generales

description: [Cottage house web site](http://www.donpedro2.countryhousegomera.com)

This house dates back to the XVIII century and has maintained many of the original decoration details from its initial construction, for example the old wood stoked oven in the kitchen (now just for decoration). One of the bedrooms has the original wooden larder, now restored and used as a wardrobe. The rooms are large and are furnished with a combination of restored antique furniture, together with modern pieces of rustic style. At the back of the house there is a corridor leading to an interior patio and which links up to the sister house Don Pedro I, a few metres away. This still has the original stone floor and is enclosed by glass windows.
